### Cable Support Systems

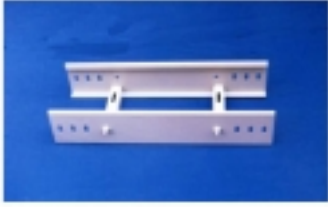

**Channel**

For laying computer cables, communication cables, and for all high sensitive systems. It works well in resisting interference and protecting the cables in seriously corrosive environment. [\[Product Details...\]](#)

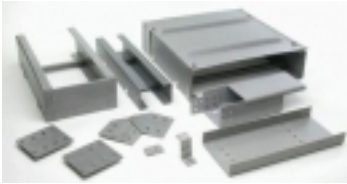

**Tray**

Applied in petrol industry, chemical industry, power industries and telecommunication. It is features by such advantages as small weight, great loading capacity, simple structure, quick heat dissipation. [\[Product Details...\]](#)

**Ladder**

Features lightness, low cost, good ventilation ability and quick heat dissipation. Used for laying big diameter cables, especially in presence of high-voltage, low-voltage power systems. [\[Product Details...\]](#)

**Closed Ladder**

Closed ladder type cable tray are suitable for vertical cable laying of cables. [\[Product Details...\]](#)
